Re: Supply of 15 x Chery Tiggo Cross 1.5 LiT CVT for the BCI Security fleet

Dear [\[Name\]](#),

I am writing to introduce CMH Wetland and to propose a Chery fleet for BCI Security. A security operation runs on vehicles that start every morning, cover long daily distances, cost little to run and return to the road quickly after a service. We believe we can equip your team with exactly that, at a competitive fleet price. A full proposal with specifications, pricing and ownership options is enclosed.

We recommend the **Chery Tiggo Cross 1.5 LiT CVT**, a compact SUV with the presence and ground clearance that suit security work, a frugal 7.3 L/100 km engine, and a generous equipment list including a 10.25 inch dual screen, cruise control, reverse camera and four airbags. It carries a 5 year / 150 000 km vehicle warranty, a 10 year / 1 000 000 km engine warranty, and a 3 year / 45 000 km service plan.

Vehicle	Chery Tiggo Cross 1.5 LiT CVT	Quantity	15 units
Retail per unit (incl VAT)	R 309 900	Fleet discount	8%
Net price per vehicle	R 285 108	Net fleet total	R 4 276 620

The net fleet total is after the 8% discount and includes VAT. On-the-road costs and options such as livery or tracking are quoted separately in the proposal. We can supply on a cash, instalment or full-maintenance lease basis, and would run the account with staggered servicing so your vehicles stay available. Target delivery is roughly three weeks from order, subject to stock.

This indicative offer is valid until [\[31 October 2026\]](#). I would welcome a short meeting to introduce the vehicle to your team and arrange a demonstration unit, with no obligation. You can reach me directly on [\[phone\]](#) or [\[email\]](#).

Kind regards,

[\[Fleet Executive Name\]](#)
