Proposal: Chery Tiggo Cross fleet solution for BCI Security

Dear BCI Security team,

Building on our existing business relationship, CMH Westrand would welcome the opportunity to support BCI Security's fleet requirements with a tailored Chery fleet solution. This proposal sets out how we would approach a fleet partnership, why the Chery Tiggo Cross may suit your operation, and a clear commercial framework to work from. It is a basis for discussion — the final package will be tailored to BCI's actual requirements, budget and replacement plans.

Illustrative BCI Security livery concept on the Chery Tiggo Cross. Branding layout, roof signalling and graphics are shown for illustration and are subject to final design approval.

1. The opportunity

CMH Westrand values its existing business relationship with BCI Security. We would welcome the opportunity to extend that relationship into fleet mobility by developing a vehicle package aligned with BCI's operational requirements, budget and replacement plans.

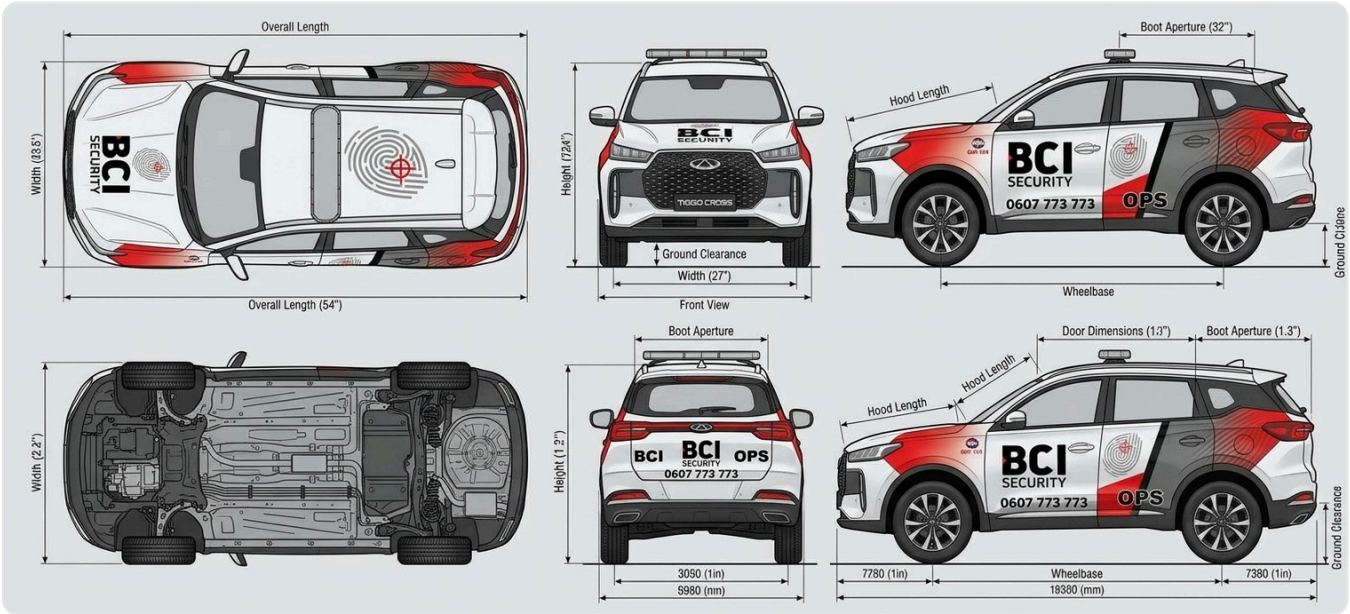

Our objective is a practical, commercially structured solution that considers the total cost of ownership, vehicle suitability and ongoing dealership support — not simply a vehicle price. Where this proposal refers to cost reduction, it is an objective to be evaluated against BCI's current fleet once the relevant figures are available, not a saving we are claiming in advance.

2. Why the Chery Tiggo Cross

The Chery Tiggo Cross is a modern compact SUV positioned for everyday practicality, driver comfort and running-cost efficiency. The figures below are published for the current South African range. The final specification — and whether the vehicle is the right fit — must be confirmed against BCI's operating requirements.

AREA	DETAIL
Powertrain (1.5T derivatives)	1.5-litre turbo-petrol, 1 498 cc PUBLISHED
Power / torque (1.5T)	108 kW / 210 Nm PUBLISHED
Transmission (1.5T)	6-speed dual-clutch (DCT) PUBLISHED
Powertrain (LiT derivatives)	1.5-litre petrol, 83 kW / 170 Nm, 5MT or CVT PUBLISHED
Fuel consumption (claimed)	1.5T: 6.5 L/100 km · LiT: 7.0–7.3 L/100 km PUBLISHED
Ground clearance	180 mm PUBLISHED
Fuel tank	51 litres PUBLISHED
Vehicle warranty	5-year / 150 000 km PUBLISHED
Service plan	5-year / 60 000 km PUBLISHED
Engine warranty (first owner)	10-year / 1 000 000 km PUBLISHED
Luggage capacity	To be confirmed on selected derivative TO CONFIRM
Airbags / driver assist (ADAS)	To be confirmed on selected derivative TO CONFIRM
Infotainment / connectivity	Touchscreen with smartphone connectivity — to be confirmed on selected derivative TO CONFIRM

Published manufacturer figures for the current South African Chery Tiggo Cross range. Final figures to be confirmed against the specific derivative selected; “to be confirmed” items are derivative-specific.

Livery concept across body views. Dimension callouts shown are an illustrative wrap-layout guide, not vehicle specifications.

SUITABILITY — TO BE CONFIRMED WITH BCI

The Tiggo Cross is proposed as a general-duty, everyday operational vehicle. It is not an armoured vehicle, a specialised patrol vehicle, or a vehicle for high-risk response, and should not be specified for those roles unless the relevant suitability has been independently confirmed. BCI's operating requirements must determine the final vehicle, derivative and any fitment.

3. The commercial fleet offer

PRELIMINARY COMMERCIAL STRUCTURE

The structure below is a framework for discussion. Pricing, discount and finance figures are shown as “to be confirmed” until BCI’s vehicle count and requirements are known and the relevant approvals are in place.

Vehicle	Chery Tiggo Cross STANDARD
Derivative	To be confirmed TO CONFIRM
Number of vehicles	To be confirmed TO CONFIRM
Recommended retail price (per vehicle)	From R359,900.00 (1.5T) — published RRP, confirmed on selected derivative REFERENCE
Proposed fleet discount (per vehicle)	To be confirmed — subject to approval TO CONFIRM
Dealership branding contribution (per vehicle)	R6,500.00 — contributed by CMH Westrand INCLUDED
Final vehicle price (per vehicle)	To be confirmed TO CONFIRM
Optional accessories	To be confirmed — by quotation TO CONFIRM
On-the-road costs	To be confirmed TO CONFIRM
Deposit	To be confirmed TO CONFIRM
Finance term	To be confirmed TO CONFIRM
Interest rate	To be confirmed — subject to credit approval TO CONFIRM
Balloon payment	To be confirmed TO CONFIRM
Monthly instalment (illustrative)	To be confirmed TO CONFIRM
Service plan	5-year / 60 000 km (standard) STANDARD
Warranty	5-year / 150 000 km (standard) STANDARD
Estimated delivery	To be confirmed — subject to stock TO CONFIRM

DEALERSHIP BRANDING CONTRIBUTION

CMH Westrand will contribute vehicle branding to the value of R6,500.00 per vehicle as part of this fleet proposal. This contribution is offered in good faith and is subject to final written agreement and branding design approval.

All pricing, finance structures, incentives and vehicle availability are subject to confirmation and the relevant approvals. Any discount, accessory package, service arrangement or other concession is subject to approval until authorised in writing. Finance is subject to affordability assessment, credit approval and lender terms. This document is a proposal for discussion and does not constitute a binding offer or a finance agreement.

4. Fleet partnership and support

A fleet works best when the dealership relationship is set up for it. The following are support capabilities CMH Westrand proposes to put in place for BCI.

Dedicated contact

A direct point of contact for vehicle enquiries and coordination.

Fleet quotations

Structured quotations based on the required number of vehicles and specifications.

Finance assistance

Assistance exploring suitable finance structures, subject to affordability, credit approval and lender terms.

Service coordination

Assistance coordinating servicing and workshop bookings, subject to dealer capacity and agreed arrangements.

Accessories & branding

Optional accessories and vehicle branding, subject to quotation and approval.

Vehicle delivery

Delivery coordination, subject to stock availability and agreed timelines.

Future fleet planning

An opportunity to discuss phased purchases and future replacement requirements.

WHAT THIS DOES AND DOES NOT PROMISE

These are proposed support capabilities, offered in good faith — not contractual guarantees. Priority workshop treatment, courtesy or replacement vehicles, guaranteed uptime, special service rates and dedicated fleet-management resources are not implied by this document. Each can be explored and, if agreed, confirmed in writing.

5. Fleet options

Three broad structures are set out below as starting points for discussion.

OPTION A

Initial Fleet Purchase

For BCI's immediate vehicle requirements.

- Agreed vehicle specification
- Quoted fleet pricing
- Purchase or approved finance
- Delivery coordination
- Optional accessories

OPTION B

Phased Fleet Renewal

For BCI's planned replacement requirements.

- Agreed vehicle quantities
- Phased purchasing schedule
- Budget planning
- Vehicle availability checks
- Future quotation reviews

OPTION C

Long-Term Fleet Partnership

For ongoing fleet requirements.

- Periodic fleet reviews
- Future vehicle quotations
- Maintenance coordination
- Replacement planning
- Additional support services

These are starting points for discussion. BCI has not selected any option, and this proposal makes no claim of guaranteed savings. The right structure, and any commercial benefit, will be established together once BCI's requirements are confirmed.

6. Next steps

We would welcome the opportunity to understand BCI Security's fleet requirements and develop a commercial proposal aligned with your business. A short discussion would let us confirm your vehicle requirements, replacement plans, preferred acquisition structure and budget — after which CMH Westrand can prepare a detailed quotation for your consideration.

To prepare an accurate quotation, we would need:

1. Current fleet size
2. Number of vehicles required
3. Current vehicle makes and models
4. Expected replacement timeline
5. Intended vehicle use and operating environment

6. Preferred purchasing or finance structure
7. Target budget per vehicle

7. About CMH Westrand

CMH Westrand is a dealership within the Combined Motor Holdings (CMH) Group and an authorised Chery dealer. Through CMH Westrand, BCI Security would have a single point of contact for new-vehicle supply, finance facilitation, servicing and aftersales support across its Chery fleet.

8. To proceed

This proposal is a basis for discussion and is not a binding offer. To take it further, a brief fleet discussion is the natural next step — from there, CMH Westrand can prepare a detailed, costed quotation for BCI's consideration. The acknowledgement below simply records an intention to proceed to a quotation; it does not commit either party to a purchase, a price or a finance agreement.
