- ✓ Service plan **3 yr / 45 000 km**

Presence

SUV stance and a marked fleet that deters on sight and advertises BCI every hour it is on the road.

Low running cost

A frugal engine and auto gearbox keep rand-per-kilometre down and officers fresh across long shifts.

Hard to stop

Class-leading warranty and a held-parts service plan cap downtime, so coverage is never short a vehicle.

Specifications verified against Chery South Africa and SA motoring sources, October 2026. Manufacturer claims for the standard 1.5 LiT CVT; final build, colours and livery confirmed at order.

OWNERSHIP, YOUR WAY

Three ways onto the road.

The fleet can be structured around your cash flow and how BCI prefers to hold its assets. We will put firm figures to whichever route suits you the moment you want them.

Cash purchase

Outright ownership from day one, no finance cost. The simplest route for assets you intend to keep for the long haul.

Instalment sale

Spread the fleet over a fixed term with a deposit, with ownership passing to BCI at the end. Subject to credit approval.

Full-maintenance lease

One fixed monthly figure with servicing, maintenance and tyres included. Easiest to budget, and it keeps the fleet fresh.

WHAT CMH WESTRAND COMMITS TO

1

One fleet account

A single named manager for orders, servicing and every query.

2

Uptime by design

Servicing staggered across the fleet, common parts held.

3

Delivered ready

Wrapped, licensed and road-ready, roughly three weeks from order.

4

Clear in writing

Every detail confirmed in writing before you commit. No surprises at handover.

The next step

Let us bring a demonstration unit to your team and talk through how the fleet fits your operation, your vehicles and where BCI is headed. No obligation. Name a day and we will be there, with firm figures ready whenever you are.
